## Technical Skills

- **Languages:** Java, JavaScript
- **Technologies / Frameworks:** React.js, Node.js, Express.js, RESTful APIs, HTML5, CSS3, Bootstrap, Git, GitHub
- **Database:** MySQL, MongoDB
- **Familiar With:** C++, Python, Linux, Netlify, Generative AI

## Projects

### Personal Portfolio Website / *React.js, Tailwind CSS, Framer Motion, GitHub*

May 2024 - June 2024

- Created a cutting-edge and responsive portfolio website to prominently showcase my projects and skills.
- Engineered the frontend with React.js, utilized Tailwind CSS for sophisticated styling, and incorporated Framer Motion for engaging animations, enhancing user engagement. Demonstrated strong problem-solving skills and attention to detail.
- Launched a visually compelling and interactive portfolio, effectively highlighting my web development expertise.

### Blog Website / *React.js, Node.js, Express.js, MongoDB, CSS, GitHub*

January 2024 - February 2024

- Designed a dynamic website where users can create accounts, share their experiences, write articles, and post thoughts.
- Features include user profiles, the ability to update and delete posts, along with robust user authentication. Integrated MongoDB to increase efficiency and reduce response time.
- Considerations for this website include ensuring robust user privacy and moderation systems.

### Todo List / *React.js, CSS, GitHub*

January 2024 - February 2024

- Built a web app for managing daily to-do lists, featuring functionalities for creating, updating, deleting, and completing tasks.
- This application aims to streamline task management, offering users a convenient platform to stay organized and productive.

### Real Estate Website / *React.js, CSS, Bootstrap, GitHub*

October 2023 - November 2023

- Developed an innovative website tailored for the real estate market, emphasizing usability and functionality.
- Utilized React.js to enhance user interaction and flexibility. The platform is responsive and user-centric, providing a seamless experience for browsing, purchasing, and selling properties.
- Prioritizing usability and functionality, it effectively enhances the real estate experience for both buyers and sellers.

## Training

### Full Stack Development With MERN / *CipherSchools, Mohali, Punjab*

January 2024 - February 2024

- During the 4-week training period, acquired proficiency in advanced React concepts such as hooks, state management, and authentication as well as Node.js, Express.js, and MongoDB while developing a blog website and several mini projects. Showcased dedication and discipline in mastering new technologies through focused learning.

### Core Java and Data Structures and Algorithms / *Programming Pathshala, Ghaziabad, Uttar Pradesh*

June 2023 - July 2023

- Mastered Java fundamentals and advanced topics such as Binary Search and Recursion in a 7-week training, culminating in developing a Sudoku Solver GUI using arrays, recursion, and backtracking.

## Achievements

- **5-Star** batch in java on HackerRank
- **100+** Questions solved in java on LeetCode

January 2024

March 2023 - Present

## Certificates

- **Full Stack Development with MERN** / *CipherSchools*
- **Meta Front End Developer Professional Certificate** / *Coursera*
- **Java (Basic)** / *HackerRank*
- **Fundamentals of Core Java and DSA** / *Programming Pathshala*

February 2024

December 2023

December 2023

July 2023

## Education

### **Lovely Professional University**

October 2021 – July 2025

*Bachelor of Technology - Computer Science and Engineering — CGPA: 7.64*

*Phagwara, Punjab*

### **Bal Vidya Niketan**

June 2018 – March 2020

*Higher Secondary School (12th) — Percentage: 70%*

*Jehanabad, Bihar*

### **Bal Vidya Niketan**

June 2017 – March 2018

*High School (10th) — Percentage: 85.16%*

*Jehanabad, Bihar*
