Technical Skills

- **Languages:** Java, JavaScript
- **Technologies / Frameworks:** React.js, Node.js, Express.js, RESTful APIs, HTML5, CSS3, Bootstrap, Git, GitHub
- **Database:** MySQL, MongoDB
- **Familiar With:** Redux, Tailwind CSS, Netlify, Generative AI

Projects

Blog Website / *React.js, Node.js, Express.js, MongoDB, Tailwind CSS, [GitHub](#)*

December 2024 - January 2025

- Developed a dynamic blog platform with user authentication, personalized blog dashboards, and profile management (update & delete).
- Implemented a comment system for engagement and an admin dashboard for managing users and blogs efficiently.
- Optimized database performance using MongoDB while ensuring robust security, privacy, and content moderation.

Personal Portfolio Website / *React.js, Tailwind CSS, Framer Motion, [GitHub](#)*

June 2024 - July 2024

- Created a cutting-edge and responsive portfolio website to prominently showcase my projects and skills.
- Engineered the frontend with React.js, utilized Tailwind CSS for sophisticated styling, and incorporated Framer Motion for engaging animations, enhancing user engagement. Demonstrated strong problem-solving skills and attention to detail.
- Launched a visually compelling and interactive portfolio, effectively highlighting my web development expertise.

Todo List / *React.js, CSS, [GitHub](#)*

January 2024 - February 2024

- Built a web app for managing daily to-do lists, featuring functionalities for creating, updating, deleting, and completing tasks.
- This application aims to streamline task management, offering users a convenient platform to stay organized and productive.

Training

Full Stack Development With MERN / *CipherSchools, Mohali, Punjab*

January 2024 - February 2024

- During a 4-week training program, gained expertise in advanced React concepts like hooks, state management, and authentication, alongside Node.js, Express.js, and MongoDB, while developing a blog website and mini projects.
- Demonstrated dedication and discipline by mastering new technologies through focused and structured learning.

Core Java and Data Structures and Algorithms / *Programming Pathshala, Ghaziabad, Uttar Pradesh*

June 2023 - July 2023

- Mastered Java fundamentals and advanced topics such as Binary Search and Recursion in a 7-week training, culminating in developing a [Sudoku Solver GUI](#) using arrays, recursion, and backtracking.

Achievements

- **5-Star** batch in java on HackerRank
- **100+** Questions solved in java on LeetCode

January 2024

March 2023 - Present

Certificates

- **Introduction to MongoDB for Students** | *MongoDB*
- **Server side JavaScript with Node.js** | *Coursera*
- **Meta Front End Developer Professional Certificate** | *Coursera*
- **Java (Basic)** | *HackerRank*
